Recall Package 2008
 Digitek® (Digoxin Tablets, USP)
 0.125mg, 0.25mg
 Page 2 of 21

I. Product Information

Type of Recall: Class I
Product names: Digitek® (Digoxin tablets, USP) 0.125 mg and 0.25 mg
NDC Number: 0.125 mg Bertek 62794-145-01 0.25 mg Bertek 62794-146-01
Description of the product (Include if product is powder, liquid, tablet, capsule, etc.) Refer to enclosed Product Insert (Attachment I)
Intended use or indications Refer to enclosed Product Insert (Attachment I)
Expiration date: 24 - months (0.125 mg and 0.25 mg)
TWO COMPLETE SETS OF ALL LABELING INCLUDING:
Product labeling / Individual package label: Attachment II The subject products are manufactured and labeled for Bertek (Mylan) Pharmaceuticals, Inc.
Case label: Attachment III (Examples 0.125 mg Lots 80189A1, 80046A1, 80045A1 and 0.25 mg Lots 80108A1, 80112A1, 80111A1)
Product/Package Inserts: Attachment I
Directions for Use: Refer to enclosed Product Insert (Attachment I)
Promotion Material (if applicable): None
NDA/ANDA/NADA Number: ANDA # 40-282
Strength: 0.125 mg and 0.25 mg
Route of Administration: Oral
Expected shelf life of product: 24 -months

II. Recalling Firm Information

Firm name, address, city, state, zip Actavis Totowa LLC 101 East Main Street, Little Falls, NJ 07424
Firm type: Contract Manufacturer: The products are manufactured and labeled for Bertek (Mylan) Pharmaceuticals, Inc.

Recall Package 2008

 Misbah Sherwani, Senior Manager Quality Investigations - 908/906/4469

Name/title/address/phone number of the most responsible individual for the recalling firm.

Sigurdur Oli Olafsson, CEO, Actavis Inc.
 60 Columbia Road, BLDG. B
 Morristown, NJ 07960
 Work 973-993-4355

Public contact (Name/title/phone/fax number/e-mail address)

None

MANUFACTURER

Firm name, address, city, state, zip

Actavis Totowa LLC 101 East Main Street, Little Falls, NJ 07424

FDA registration number: FEI # 2244683

FIRM RESPONSIBLE FOR THE VIOLATION/PROBLEM

Firm name, address, city, state, zip:

Actavis Totowa LLC 101 East Main Street, Little Falls, NJ 07424

III. REASON FOR THE RECALL

How product is defective and/or violative:

Digoxin tablets exceeded tablet thickness specifications.

How the defect affects the performance and safety of the product:

Use of this product poses an adverse health consequence to the consumer. Refer to enclosed Health Hazard Assessment: Attachment V

How the problem was discovered:

During the packaging operation of lot 70924A1 (0.125 mg Digoxin Tablets), the packaging operator observed tablets with approximately double the thickness on the counter channel.

Date Discovered:

11/30/2007

Date(s) of Occurrence:

11/19/2007

Scope of the Product/Problem:

Investigation results indicate that the problem is associated with all in-date marketed lots.

Recall Package 2008
 Digitek® (Digoxin Tablets, USP)

III. REASON FOR THE RECALL (Continued)

Field Alert submitted:
 None

IV. HEALTH HAZARD ASSESSMENT

Attachment V

V. VOLUME OF RECALLED PRODUCT

Refer to Attachment VII for Lot Specific Details

Total quantity released:

Strength	Quantity
0.125mg	1,724,851 bottles
0.25mg	1,499,935 bottles

Quantities released are direct shipments to Mylan Pharmaceuticals, Inc.

Date(s) manufactured:

Strength	Manufacturing Dates
0.125mg	From <u>4/20/2006</u> to <u>3/17/2008</u>
0.25mg	From <u>4/08/2006</u> to <u>2/09/2008</u>

Quantity distributed:

Strength	Quantity
0.125mg	1,724,851 bottles
0.25mg	1,499,935 bottles

Date(s) distributed:

Strength	Distribution Dates
0.125mg	From 06/06/2006 to 03/31/2008
0.25mg	From 5/10/2006 to 03/21/2008

Quantity on HOLD by Recalling firm and its distribution centers:

No recalled lots are hold with Actavis and its distribution centers. Prior to initiation of the recall, the subject lots were shipped to Mylan Pharmaceuticals warehouse/distribution center in Greensboro, NC.

Recall Package 2008
 Digitek® (Digoxin Tablets, USP)
 0.125mg, 0.25mg
 Page 5 of 21

VI. VOLUME OF RECALLED PRODUCT (Continued)

Refer to Attachment VII for Lot Specific Details

Product Quarantined:

Recalled lots are to be returned to:

Stericycle
 2670 Executive Drive, Suite A
 Indianapolis, IN 46241

The recalled material will be stored as segregated material until FDA approval for its destruction is received.

Estimate amount remaining in marketplace at:

Strength	Quantity
0.125mg	1,724,851 bottles
0.25mg	1,499,935 bottles

Status/disposition of marketed product, if known, (e.g., used, transfused, implanted, used in further manufacturing or destroyed):

Used

VI. DISTRIBUTION PATTERN

Number of DIRECT accounts by type:

Refer to Attachment IV

Example: Wholesalers/distributors, Re-packers, Manufacturers, Retail/pharmacy/veterinarian, Users (medical devices - hospitals, clinics, laboratories), Consumers (internet or catalog sales), Federal government consignees, Foreign consignees (specify whether they are wholesale distributors, retailers or users)

Geographic areas of distribution, including foreign countries

Domestic US; see Attachment IV

VII. RECALL STRATEGY

Recall level in Distribution Chain: Consumer Level

Recall letters were sent to the direct consignees that were shipped the subject lots via UPS overnight on 4/28/08.

Recall Package 2008
 Digitek® (Digoxin Tablets, USP)
 0.125mg, 0.25mg
 Page 6 of 21

VII. RECALL STRATEGY (Continued)

Rationale for Consumer level: Due to the severity of the health risk, we recommend a Level I recall.
Method of notification: Written notification via UPS Overnight delivery Sample Letter enclosed (Attachment VI)
Instructions for customers: Consignees are requested to examine their respective inventory for the subject lots and return any remaining stock of the recalled lots only. Refer to enclosed Sample Letter (Attachment VI)
Product Return: An approved 3 rd party provider of pharmaceutical returns is providing recall services that includes preparation of and distribution of letter(s) to consignees, effectiveness checks, and recall status reports. The provider is: <div style="text-align: center;"> Capital Returns 6101 North 64th Street Milwaukee, WI 53218 </div>
Market Shortage: The recall has created a market shortage that will impact on the consumer.
Effectiveness Check Strategy: Level A: 100% of the total number of consignees to be contacted. Actions for non-responders: A second mailing to all of the non-responders will follow about 6-8 weeks after the initial mailing. Non-responders to the 2 nd mailing will then be contacted three (3) times by phone by Capital Returns All non-responder will be noted in the recall summarization provided by Capital Returns Actions for Out-of Business Distributors: Out-of-business distributors will be handled on a case-by-case basis.
Proposed method of destruction: Prior to Product Destruction the FDA NJ District Recall Coordinator will be contacted to verify whether witness by FDA is required. The product destruction by incineration will be contracted to: <div style="text-align: center;"> Stericycle 2670 Executive Drive, Suite A Indianapolis, IN 46241 </div>
Product Reconditioning: There will be no product reconditioning. As such, it will not be necessary: (1) to make distinction between reconditioned and pre-reconditioned product to prevent confusion and (2) to contacting the FDA NJ District Recall Coordinator prior to release of reconditioned goods.

Health Hazard Evaluation

Attachment V
04/15/08

Memo

To	File	Date	18-Apr-08
From	Jerrold B. Leikin MD –Director of Medical Toxicology ENH OMEGA		
Subject	Health Hazard Evaluation – Digoxin Tabs 0.125 mg	Reference	Investigation log # 07-093

Actavis Medical Affairs contracted Jerrold B. Leikin MD. to perform a Health Hazard Evaluation (HHE) for the subject drug product. Specifically, to evaluate the impact of Digoxin Tabs 0.125 mg that were had a thickness approximately double to that required ; this issue was found during packaging/filling operations on packaging line # 405 in November, 2007 (batch # 70924A1).

Therapeutic use: Cardiac inotropic and anti-arrhythmic agent indicated for the treatment of mild to moderate heart failure.

Root cause evaluation noted that the tablets found with double thickness might have been produced during the re-adjustment at start up. It was believed possible that the tablets might have been stuck in the tablet de-duster or metal detector and was not noticed by the press operator.

Clinical conclusion: Potential risks to the patient depend upon the constituency of the tablets. If the tablets contain double the dose (0.250 mg), then it can be expected that digitalis toxicity can occur in individuals taking daily doses or in patients with renal insufficiency. Toxicity can include nausea, vomiting, dizziness, low blood pressure, cardiac instability and bradycardia. Death can result from excessive digitalis intake.

If the increased thickness is due to clinically inert substances, then a decreased amount of digitalis may be absorbed, leading to exacerbation of the underlying cardiac disease (congestive heart failure and arrhythmia) due to lack of therapeutic efficacy.

Based upon US Actavis Medical Affairs' internal review of domestic spontaneously reported adverse events for the time period of January 1, 2005 until March 31, 2008, a pattern of events were not identified for this product related or unrelated to known adverse events. Serious adverse events implies that such events are associated with death, a life-threatening event, caused permanent disability or damage, led to hospitalization, involved a congenital abnormality, or may have caused an important medical event. In this review, eleven adverse events were noted. Reported adverse event cases do not imply a direct cause-effect relationship of the product and the event since these are spontaneously reported cases that may have multiple confounding factors reported by known and unknown qualified sources.

Dates	ID Number	Expedited/Periodic	Adverse Event	Domestic Spontaneous (lot number and Exp date)

URGENT: DRUG RECALL

Digitek[®] (digoxin tablets, USP)

April 28, 2008

Dear Valued Customer:

This is to inform you of a product recall involving:

Digitek[®] (digoxin tablets, USP)
NDC # 62794-145-01; 62794-145-10; 62794-145-56;
62794-146-01; 62794-146-10; 62794-146-56

See enclosed product labels (See Attachment 1).

This recall has been initiated due to overweight tablets. Potential risks to the patient depend upon the constituency of the tablets. Depending on the constituency of the tablets, double the dose is taken, it can be expected that digitalis toxicity can occur in individuals taking daily doses or in patients with renal insufficiency. Toxicity can cause nausea, vomiting, dizziness, low blood pressure, cardiac instability and bradycardia. Death can result from excessive digitalis intake. If the increased thickness is due to clinically inert substances, then a decreased amount of digitalis may be absorbed, leading to exacerbation of the underlying cardiac disease (congestive heart failure and arrhythmia) due to lack of therapeutic efficacy.

ACTAVIS has distributed the subject lots from 03/01/06 through 04/24/08. This recall should be carried out to the consumer level.

Upon receipt of this letter, please take the following action:

1. **Immediately** examine your inventory and quarantine and discontinue distribution of the affected lots.
2. In addition, if you may have further distributed the recalled product, please identify your retail-level customers and notify them at once of this product recall.
3. Additionally, if the retail-level customers have further distributed the recalled product, please identify the consumer and notify them immediately of this product recall.
4. Complete the enclosed form and mail it in the self-addressed, stamped envelope enclosed. To assure accountability, it is imperative that this form be returned even if you do not have product in stock or you have already returned the product.

URGENT: DRUG RECALL

Digitek[®] (digoxin tablets, USP)

All product inventory is to be returned to:

Stericycle
2670 Executive Drive, Suite A
Indianapolis, IN 46241
RE: Digitek (Digoxin Tablets, USP)

A packing slip must be enclosed in the return, designating product, quantity and return shipping costs. Please use the enclosed labels on the material you are returning.

As soon as your return shipment of the referenced product is processed, a credit will be promptly issued for the value of the merchandise, plus shipping costs.

Sincerely,

Phyllis Lambridis

VP, US Quality and Compliance

Actavis, Inc.

News release

**Actavis Totowa (formerly known as Amide Pharmaceutical, Inc.)
recalls all lots of Bertek and UDL Laboratories Digitek® (digoxin
tablets, USP) as precaution**

Morristown, NJ, 25 April 2008 □ Actavis Totowa LLC, a United States manufacturing division of the international generic pharmaceutical company Actavis Group, is initiating a Class I nationwide recall of Digitek® (digoxin tablets, USP, all strengths) for oral use. The products are distributed by Mylan Pharmaceuticals Inc., under a "Bertek" label and by UDL Laboratories, Inc. under a "UDL" label.

The voluntary all lot recall is due to the possibility that tablets with double the appropriate thickness may have been commercially released. These tablets may contain twice the approved level of active ingredient than it appropriate.

Digitek® is used to treat heart failure and abnormal heart rhythms. The existence of double strength tablets poses a risk of digitalis toxicity in patients with renal failure. Digitalis toxicity can cause nausea, vomiting, dizziness, low blood pressure, cardiac instability and bradycardia. Death can also result from excessive Digitalis intake. Several reports of illnesses and injuries have been received.

Actavis manufactures the products for Mylan and the products are distributed by Mylan and UDL under the Bertek and UDL labels. Bertek and UDL are affiliates of Mylan.

Any customer inquiries related to this action should be addressed to Stericycle customer service at 1-888-276-6166 with representatives available Monday through Friday, 8 am to 5 pm EST. Additional information about the voluntary recall can also be found at www.actavis.us.

Retailers who have this product are urged to return the product to their place of purchase. If consumers have medical questions, they should contact their health care providers.

This recall is being conducted with the knowledge of the Food and Drug Administration.

Any adverse reactions experienced with the use of this product, and/or quality problems should also be reported to the FDA's MedWatch Program by phone at 1-800-FDA-1088, by Fax at 1-800-FDA-0178, by mail at MedWatch, FDA, 5600 Fishers Lane, Rockville, MD 20852-9787, or on the MedWatch website at www.fda.gov/medwatch.

Press Release

About Actavis Group

Actavis is one of the world's leading generic pharmaceutical companies specializing in the development, manufacture and sale of generic pharmaceuticals. Based in Iceland, the company has operations in 40 countries, with 11,000 employees.

Any statements contained in this press release that refer to Actavis' estimated or anticipated future results or future activities are forward-looking statements which reflect the Company's current analysis of existing trends, information and plans. These forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially depending on factors such as the availability of resources, the timing and effect of regulatory actions, the success of new products, the strength of competition, the success of research and development issues, unexpected contract breaches or terminations, exposure to product liability and other lawsuits, the effect of currency fluctuations and other factors.
